Officer Response to Calls

309.1 PURPOSE AND SCOPE

This policy provides officers with guidelines for the safe and appropriate vehicular response to emergency and non-emergency incidents or requests for assistance, whether these are dispatched or self-initiated.

309.2 POLICY

It is the policy of this department to appropriately respond to emergency and non-emergency calls for service or requests for assistance, whether these are dispatched or self-initiated.

309.3 RESPONSE TO CALLS

Officers responding to non-emergency calls shall proceed accordingly, unless they are sent or redirected to a higher priority call, and shall obey all traffic laws.

309.3.1 EMERGENCY CALLS

Officers should only respond to a call as an emergency response when so dispatched or when circumstances reasonably indicate an emergency response is required. This includes, but is not limited to (Md. Code TR § 21-106):

(a) When in pursuit or apprehending a violator or suspected violator.

(b) When responding to a reported emergency involving possible personal injury, death or significant property damage.

(c) When immediate assistance is requested by an officer or other law enforcement agency.

Officers not responding to a call as an emergency response shall observe all traffic laws and proceed without the use of emergency lights and siren.

309.4 REQUESTING EMERGENCY ASSISTANCE

When requesting emergency assistance, the involved department member should reasonably believe there is an imminent threat to the safety of him/herself or another person, or that assistance is needed to prevent imminent serious harm to the public.

If circumstances permit, the requesting member should provide the following information:

- Identifying call sign
- Location of the emergency situation
- Suspect information, including weapons
- Reason for the request and type of emergency
- The number of officers or resources required

- Hazards and any known or potential dangers for responding officers

In any event where a situation has stabilized and emergency response is not required, the requesting member shall immediately notify the dispatcher.

309.5 SAFETY CONSIDERATIONS

Officers responding to an emergency call shall proceed immediately as appropriate and shall continuously operate the emergency vehicle lighting and siren as required by law (Md. Code TR § 21-106(c)).

Responding with emergency lights and siren does not relieve the operator of an emergency vehicle of the duty to continue to drive with due regard for the safety of all persons and property, and does not protect the operator from the consequences of reckless disregard for the safety of others. However the officer may, when responding to a call with an emergency response, and provided there is no endangerment or unnecessary risk to persons and property (Md. Code TR § 21-106(b)):

- Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation.
- Exceed the speed limit.
- Disregard regulations governing direction of movement or turning in specified directions.
- Park or stand without regard to parking restrictions.

309.5.1 NUMBER OF OFFICERS ASSIGNED

Only the number of officers that are reasonably necessary should be assigned to respond to an emergency call or request for assistance.

The Duty Officer or supervisor will make a determination regarding the appropriateness of the response and reduce or enhance the response as warranted.

309.6 EMERGENCY EQUIPMENT

Vehicles not equipped with emergency lights and siren are prohibited from initiating or joining in an emergency response. Officers in such vehicles may provide support to responding vehicles as long as the vehicles are operated in compliance with all traffic laws. Those officers should terminate their involvement in any emergency response immediately upon arrival of a sufficient number of emergency law enforcement vehicles.

If the emergency equipment on the vehicle should fail to operate, the officer must terminate the emergency response and continue accordingly. The officer shall notify the Duty Officer, supervisor, or the dispatcher of the equipment failure so that another officer may be assigned to the emergency response.

309.7 OFFICER RESPONSIBILITIES

The decision to initiate or continue an emergency response is at the discretion of the officer. If, in the officer's judgment, the weather, traffic and road conditions do not permit such a response without unreasonable risk, the officer may elect to respond to the call without the use of emergency lights and siren at the legal speed limit. In such an event, the officer should immediately notify the dispatcher. An officer shall also discontinue an emergency response when directed by a supervisor or as otherwise appropriate.

Upon receiving authorization or determining that an emergency response is appropriate, whenever practicable, an officer shall immediately give the location from which he/she is responding. The responding officer shall also activate their body-worn camera during an emergency response.

The first officer arriving at the emergency call should determine whether to increase or reduce the level of the response of additional officers and shall notify the dispatcher of his/her determination. Any subsequent change in the appropriate response level should be communicated to the dispatcher by the officer in charge of the scene unless a supervisor assumes this responsibility.

309.8 THE COMMUNICATIONS CENTER

judgment, the circumstances require additional officers to be assigned an emergency response, the supervisor may do so.

It is the supervisor's responsibility to terminate an emergency response that, in his/her judgment is inappropriate due to the circumstances.

When making the decision to authorize an emergency response, the Duty Officer or the supervisor should consider the following:

- The type of call or crime involved
- The type and circumstances of the request

- Weather, traffic, and road conditions
